

High-Low Brush

Series 7047

Multi-directional Bristles

This brush shape is ideal for cleaning areas where two surfaces meet at an angle

Use with Euro-thread Handle

Attaches to any length Euro-thread handle to fit the application

Washing Bristles

Medium-stiffness bristles hold plenty of water and cleaning agent for thorough scrubbing

This is a deck scrub with bristles that are angled to clean in two directions. It is designed to clean the area where the floor meets the wall.

High-Low Brush

7047

This scrubbing broom was designed to clean the area where the wall meets the floor, and its bristles are gentle enough to be used on equipment. It is a popular choice in many moist environments that create difficult cleaning challenges.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
